

AAP DEPARTMENT OF PRACTICE SESSIONS

Dear Doctor:

It's been said that if you don't know where you're going, any road will take you there. That's why good planning is the key to making the most of any opportunity. To help you take advantage of all the excellent practice management sessions being held at the 2010 NCE in San Francisco, CA, we've assembled this planner.

Every year the Academy's expert groups put together an unparalleled national conference for pediatricians, but it can be difficult to find the practice-oriented sessions in the myriad of educational programs offered. You can use this planner to find out about sessions offered on coding, quality improvement, risk management, or whatever else you need to "take care of business." The symbols listed in the key will help you identify the practice management sessions by topic so that you can plan your day-to-day activities at the 2010 NCE.

Please be sure to register for the sessions since they tend to fill up rather quickly. And, by all means, leave time to explore the exhibit hall and stop by the AAP Resource Center to see all that the Academy has to offer.

Enjoy the meeting and San Francisco!

Sincerely,
Your Staff in the AAP Department of Practice

The Doctor Is In: AAP Coding Hotline Booth
Sunday - 9:00 am - 5:30 pm
Monday - 9:00 am - 2:00 pm

Please stop by the AAP Coding Hotline Booth located in the AAP Bookstore for all your coding needs! We will have expert physician coders from the Committee on Coding and Nomenclature and the Section on Administration and Practice Management, as well as AAP Coding Staff to answer your coding and payment questions face-to-face. We will have coding resources, including the AAP's premier publications, *Coding for Pediatrics*, 16th edition, and the *AAP Pediatric Coding Newsletter* available to show you how your practice can stay up-to-date with pediatric CPT, ICD-9-CM, and HCPCS codes. We look forward to seeing you at the AAP Coding Hotline Booth with your coding questions.
